Done. Do you have an e-mail from Ms. Hamilton, or would you prefer to keep her informed from what I send you?

Alternatively, you could send me a phone number and I could call her to inform her of future changes in plans, if any.

Hello Alice,

Happy New Year! Hope you are well. Can you add Cynthia Mellon to your list for these emails? Also, can you please add her and Ruby Hamilton to the list of names of people attending the rescheduled meeting? These are new CAG members from Newark. You may know Cynthia, she works for ICC. Ms. Hamilton attended one of our meetings, she is a tenant from Hyatt Court.

Thank you!

Best,

Victor Monterrosa, Jr.

We are expecting heavy snow in the NYC/NJ area starting tonight into tomorrow (Wed). Therefore, the Passaic River meeting is being canceled for Jan 12th.

It has been re-scheduled for Feb 8 from 10am to 3pm at 290 Broadway, NY, NY, Room to be determined. I will send reminders and revised meeting materials in a few weeks.

Thank you for your patience and be safe tomorrow.

Thank you for your interest in attending the 1/12/11 Passaic River meeting. Following are a few notes about the meeting:

1) The meeting will be at the EPA Region 2 offices at 290 Broadway, NY, NY, Room 27D (27th floor). We are at the corner of Broadway and Duane Street. The closest subway stations are the Brooklyn Bridge/City Hall stations on the 4,5,6,N,R lines. If you are taking the Path, please walk north on either West Broadway or Church for 7 blocks, turn right on Duane Street, continue until you get to Broadway.

2) Please note that we are a Federal Building, and so you will need to go through a metal detector at the entrance. Please allow a few extra minutes, bring a valid ID and do not bring pocket knives.

3) Please bring your own lunch if you do not want to leave the building and have to wait on the metal detector line again upon re-entry. Otherwise, there will be enough time to leave, buy lunch in the neighborhood and bring it back to eat in Room 27D.

4) The weather forecast is for snow in NYC/NJ area starting Tuesday night into Wednesday, with accumulation. We will make a call on whether this meeting will go forward by tomorrow (Tues) afternoon at 4pm. If there is another e-mail address you would like me to use to contact you with emergency information, please sent it to me. If you need me to call you by phone, please send me a telephone number (please make this a last resort, only if you can't receive e-mails in a timely manner). If you have invited someone else that you have not told me about, please send me their contact information, or it will be your responsibility to let them know about emergency information.

My cell phone number is 914-912-7293. Please feel free to call me with any questions.

This is a reminder of the invitation sent on 11/23/10. I would appreciate hearing from those of you who have not responded, whether you are planning to attend the meeting.

Attached is a draft agenda.

(See attached file: FFS Alternatives Jan2010 mtg-agenda.doc)

Dear Lower Passaic River Stakeholder,

This is to invite you to a meeting to discuss the alternatives being evaluated for the clean-up of the Lower 8 Miles of the Passaic River.

Date and Time: January 12, 2011 at 10am to 3pm

Location: EPA Region 2 offices, 290 Broadway, NY, NY, Room 27D (27th floor)

As you know, EPA is evaluating the following alternatives and disposal options in a Focused Feasibility Study (FFS):

Alternatives for the Lower 8 Miles of the Passaic River:

- No Action
- Deep Dredging
- Capping with Some Dredging

Disposal Options associated with dredging and capping alternatives:

- Off-Site Disposal
- Contained Aquatic Disposal (CAD)/Confined Disposal Facility (CDF)
- Local Decontamination Technology

The FFS will result in a Proposed Plan that will describe EPA's preferred alternative for public comment. The Proposed Plan is expected to be issued in the Summer of 2011.

EPA is convening this meeting to help ensure that issues of concern to our stakeholders are identified and evaluated in the FFS.

Please respond to me at yeh.alice@epa.gov if you intend to participate in the meeting; confirmed participants will receive future updates on the meeting. If you have any questions, please feel free to call me at 212-637-4427.
